

#8 Handler

iBeef[®] farm with # 8 CATTLE HANDLER[™]

**NOW WITH
ACTIVE HYDRAULICS**

The #8 Cattle Handler is a hybrid between the High Flow 260[™] HD Extreme[™] and the Hydracommander[™]. The #8 is robust and solid and features the Rotating yoke with Necklamp[™] headbail for ultimate holding and grip on large cows and bulls. The #8 is ideally designed for the breeder or stud farmer allowing a great range of jobs to be completed without hassle.

The #8 is designed with animal wellbeing in mind, great access and excellent, comfortable handling is what any animal on farm deserves. Safe, fast and ezy working conditions are needed for operators, contractors and vets alike. The reason for the name?....#8 is the ultimate performer....a sleek combination of power and good looks, just like the best rugby players.
