

3 WAY DRAFTER™

3-WAY DRAFTER MODULE

OPERATES IT:
Manual, Pulley
or Air oper.

Side gates are lockable to ensure animals do not exit unit through side gates

EASY DRAFTING STRAIGHT OUT OF A HEADBAIL OR HANDLER

The 3-WAY SMART-YARD® DRAFTER MODULE makes Drafting straight out of a headbail or a Handler a piece of cake!

This multi purpose drafter has self locking access gates that allow you full access to the headbail. The slimline non-turn-around design can have its highly effective drafting gates operated manually, by rope-and-pulley or with a remote / joy stick. (Central point air operation.)

It really complements a Handler and is worth its investment in time savings and optimum working speed as well as increased safety.

Your options:

- 1) Manual opening
- 2) Pulley/rope opening
- 3) Central point air operation
- 4) Weigh activated air auto draft
- 5) EID auto draft on application

WE MAKE FARMING EZY 3-WAY DRAFTER

SAFE & EASY ACCESS

Front access gates allow you easy access to the front of the headbail/handler so you can carry out operations on the animal's head with maximum safety.

EXCELLENT DESIGN

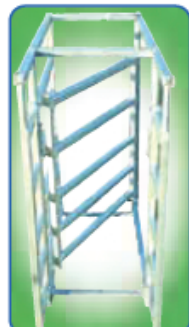

Same width 'sleek' design ensures cattle do not turn in the drafter.

Side gates are lockable to ensure animals do not exit unit through side gates.

AIR OPERATION PANEL

Optional central point air operation.

VERY QUIET OPERATION

You have a choice of 3 opening methods: Manual, Pulley or fully air operated drafting with a remote / joystick.

100% NZ MADE

A solid robust construction that is of New Zealand design and workmanship.

ROUNDED CONTACT AREAS

Rounded "non bruising" steel on all contact areas resulting in better meat quality (pH measurements) enhancing your meat returns. Galvanized inside and outside.

EID CAPABILITY

Leaders in EID - Ear tags and tag reading systems. See brochure on our EID systems.

SAFETY ASSURED

ACC & OSH New private insurance requirements will mean savings and credibility to you when you ensure safety in your working environment.

MADE ROBUST

High tensile robust; Up to 28% more strength at no extra cost. Constructed out of Heavy Duty Kattle Rail extra strength material for extreme durability
SPECS: 2750mm long x 740mm wide. Material: 50/50 RHS/Pipe - Heavy Duty Galv. Kattle Rail.

EZY QUOTE: "Paying a little more justifies itself in the long term and we are happy with the money we outlaid" "The benefits of having a TechniPharm Handler compared to another crush on the market have been worth it and I think it is good value for the dollar spent" PR & SM Humphreys Wilencote Station GISBORNE
