

IDAIRY®FARM

NEW

iDAIRYFARM™ DAIRY HANDLING ...made ezy

Workbook 2025/2026

- ✓ Metal is a 100% recyclable product
- ✓ Circular Agricultural Economy

- ✓ An inflation price adjustment maybe added to all prices
- ✓ See website for our sales Terms & Conditions
- ✓ All prices exclude GST and freight/in transit insurance

Note:

A price inflation adjustment may apply to all prices, see our T's and C's www.technipharm.co.nz

Our production efficiency is achieved by best forward planning, as such our factory is always at full capacity

For all custom made product allow at least 6-10 weeks from order to delivery

For standard products stock may be on hand depending on seasonal fluctuations and demand

We recommend you plan ahead well of time to ensure we can meet your requirements in the best way possible

Multipurpose Hoofcare and Handling

DAIRY ✓ SUPREME™

DAIRY SUPREME MANUAL

CODE: DHSU

\$24,950.-

E-SUPREME

CODE: DHSU

\$27,950.-

ACTIVE HYDRAULICS

BASE UNIT SPECIFICATION

- ✓ Extra Length Handler (Full size incl. vet section) To ensure cows can be PD tested or AI'd without headbailing.
- ✓ Slam shut camlatch handles on all gates. For safely and fast closing of gates.
- ✓ Concertina Headbail active hydraulics
- ✓ Neck extenders. To ensure heads are forward for bolus insertion, tagging, as well as reducing side movement.
- ✓ Single side squeeze. To reduce the width of the unit which allows greater control of the cow.
- ✓ Self closing calf infill. An automatic squeeze block to stop any animal escaping through the gap created by the squeeze.
- ✓ Vet safety slot. To provide extra safety for rectum palpation and calving cows (the vet slot allows the cow to lay down and yet pull the calf out "through the gate").
- ✓ Front leg hooftrim support. To trim nasty front feet.
- ✓ Belly hoist and rear hooftrim support. To lift up the rear leg or belly, increasing immobilization.
- ✓ Top gate backing system. To stop back any adult cow which then allows bottom gate to open for calf feeding.
- ✓ 25 Tonne bending strain main frame. To ensure the unit will not be affected by long term metal fatigue.
- ✓ Round steel on all contact area's. To ensure non bruising to people and

cows.

- ✓ Unique hyrdalock™ on manual operation
- ✓ Pipe over pipe hinging of all gates- hinged as per plan. To ensure that gates will never sag or fall off the hinges.
- ✓ Materials used are 30% above specifications. To ensure the unit will last and last...
- ✓ Split "fast action" self locking rear sliding door. To ensure quick opening and closing of the door & provide a safety lock so the next animal can not enter. Extra length handle on rear door.
- ✓ Heavy door panels.
- ✓ To ensure they can stand the test of time (& a good kick).
- ✓ Door drain holes.
- ✓ To ensure there is no water/muck build up.
- ✓ Mounting lugs. To mount the unit on concrete or to place a weigh system underneath the unit.
- ✓ Hot dip Galv
- ✓ Two year warranty on workman ship and materials. To show you we are serious about value for money and quality.
- ✓ Choice of operation side. To allow you to have the unit made so it fits your dairy.
- ✓ 3 side access gates per side
- ✓ Anti sway bar both sides

\$11,450.-

\$13,950.-

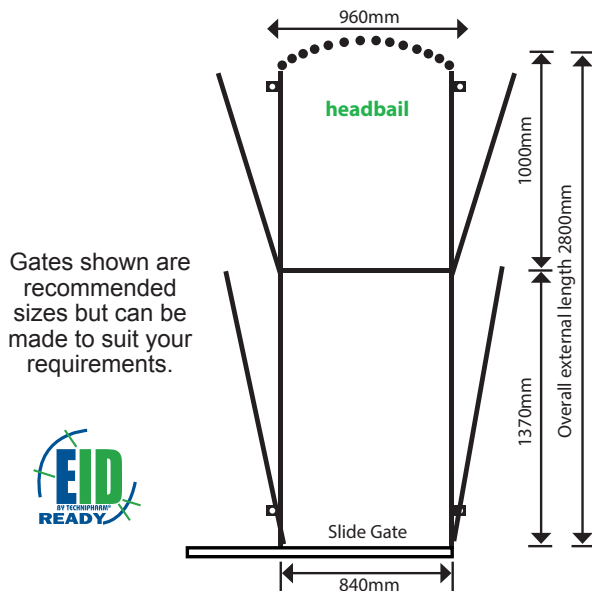

BASE UNIT SPECIFICATION

- ✓ Rear hinge gates for excellent front feet access.
- ✓ Rear swinging access gates for rear feet.
- ✓ Winch for hooking on rear legs, lifting assembly adjustable
- ✓ Neck Extenders. To ensure heads are forward for bolus insertion, tagging, as well as reducing side movement.
- ✓ Front leg hooftrim support with tie down which is great for those hard to get at front feet, total control, no effort.
- ✓ Belly hoist, this is great for stabilising the cow and ensuring she stays up
- ✓ Rump chain/ quick release
- ✓ Side stays these ensure the cow can not sway sideways while gates are open
- ✓ Solid lock spring bolt handles on all gates for safety
- ✓ Square over pipe hinging of all gates- hinged To secure that gates will never sag or fall off the hinges
- ✓ Standard Galvanised for excellent durability. Two year warranty on workmanship and materials to show you we are serious about value for money and quality. Manufactured with quality steel and rounded high tensile Kattle Rail™ for an "all steel" robust design.
- ✓ Choice of operation side N/S or O/S. To allow you to have the unit made so it fits your dairy (please tick your preferred side operation in the drawing on the right) . Rear end lock back gates To allow full containment of the animal, a major advantage when handling more than one cow.
